SUMMARY

Full Stack Software Engineer with hands-on experience building scalable backend systems at Navan. Proficient in TypeScript, Angular, React, Java, and Spring Boot with a focus on data integrity, audit logging, and AI-assisted development. Demonstrates excellent problem-solving, organizational skills, and efficiency under tight deadlines.

B.Sc. in Computer Science and Asian Studies | Bar Ilan University | 2022 – 2026

SKILLS

- **Coding Languages, Frameworks & Tools:** TypeScript, Angular, React, Java, JavaScript, Spring Boot, Python, SQL, Bash, C, Jenkins.
- **Key Concepts:** Algorithms, Data Structures, Problem Solving, Leadership, Teamwork.
- **Languages:** English (Native), Hebrew (Native), Japanese (Intermediate).

EXPERIENCE

Full Stack Software Engineer | Navan | 2025 – Present

- **Backend Services:** Developed backend services using TypeScript, Angular, Spring Boot, and Java, focusing on complex data discrepancy resolution.
- **System Compliance:** Designed and implemented an audit log system to ensure data traceability and compliance across platform services.
- **AI Integration:** Created Model Context Protocol (MCP) integrations and leveraged AI development tools (Cursor, Claude Code, Antigravity) to accelerate delivery.

Quality Assurance Manager | Autonomous Pivot | 2021 – 2022

- **System Quality Assurance:** Developed and implemented Quality Assurance processes and systems to ensure product quality.
- **Employee Training:** Instructed and trained new employees on system building and personally tested each system created.

Combat Intelligence Combat Medic and Platoon Medic | Israel Defense Forces

- **Medical Training:** Trained and instructed soldiers in first aid, emergency response, and health care protocols.
- **Reconnaissance Operations:** Acted as a scout, conducting reconnaissance missions to gather crucial information on enemy positions and activities.
- **Team Leadership:** Developed strong leadership and teamwork skills by leading a team of medics and coordinating with other units.
